

## 7 Costumes to Try in Your Adult X-Rated Videos

Filming yourselves making love as you would without a video recorder running is nice and sweet. Sometimes though a little role-playing doesn't hurt! And using 'costumes' is a great way to add excitement and fun into your x-rated home movies.

Don't think that your partner may be completely against this idea. You might be surprised to find out that she's more than willing to put on a costume and 'assume a role'. Why? Most women feel less inhibited if they take on another persona. For instance, she may feel shy talking dirty on film but give her a dominatrix costume and that may change in a minute!

If you want to help her find just the right costume (or you want to get it for her), consider these Top 7 outfits for the bedroom.

### 1. The French Maid

Yes, it's been around forever, but for good reason. The French Maid is a costume that men enjoy looking at (which we'll delve into in a minute) and that women enjoy because they can be flirty and sensual without being overly sexual (though there is room for that as well).

Men seem to enjoy the French Maid because she's usually made up and she might have to bend over and pick something up. She's sexy but not overly sexual.

That doesn't mean this costume doesn't scream sex though. From the fishnet stockings to the very short skirt to the garter, there's much about this costume that says "come and get me".

### 2. The Sexy Nurse

Need a little help there, sir? This nurse is sure to help. She's professional, capable and self-assured. And if you look at her or touch her just right, she's willing to make you feel 'really good'.

Nurse costumes are extremely popular. There's an element of danger there (she's working, should you really be flirting with her?, etc.), and the sense that you will be well taken care of. Don't forget to add the thigh-high stockings.

### 3. The Naughty & Innocent Schoolgirl

This costume is an easy one to fashion at home for those who don't want to purchase a full-blown costume. The naughty schoolgirl is appealing for a few reasons: she should be off-limits, she might be extremely dirty if you give her a chance and she's either grossly inexperienced, or she has much more experience than you anticipate.

Naughty schoolgirl costumes are big sellers at costume stores, but this costume can easily be put together at home with a short skirt, knee-high socks, a shirt tied to reveal a bare midriff and ponytails.

#### **4. The Wench**

That's right; I said wench. You have always wanted a wench for your very own, haven't you? The wench costume is popular largely for its message – she's easy.

A wench is an easy, experienced and very naughty woman. Putting your woman in this costume lets both of you have some fun with the notion that she's a very bad girl, in a good-in-the-bedroom kind of way.

#### **5. The Stripper**

You might argue that this one doesn't need a costume, but all strippers start with something on them. It's the taking off that's interesting! This costume is always popular thanks to its accessibility. Any woman can put on some lingerie, makeup and very high heels and put themselves in the role of a stripper.

Men like the costume because it gives them the sense that they can sleep with that sexy, professional woman who would normally be off limits.

#### **6. The Stewardess**

Are you ready to join the Mile High Club? That's what this costume represents. Having fun with this costume reminds you that you can have fun anywhere, including at 30,000 feet, or just a few feet off the floor in your own bed. And, best of all, you can have fun with the sexy stewardess who keeps winking at you.

The stewardess costume must include a tight dress (or skirt and jacket to create a suit) and high heels. It also should include a low cut top, perhaps a scarf around the neck and a lady wearing the costume who knows how to be professional, yet make you feel ultra comfortable!

## 7. The Playboy Bunny

It's trite, but the Playboy bunny is still a hot seller among adult costumes. This costume is appealing to men because it finally places the bunny in a place where you can have her. You can touch her, and you can be the one to play with her tail, if you know what I mean. There is a sweet naughtiness to this costume that appeals to a wide range of men (and women).

So the next time you decide to film your erotic video, role-play with these sexy and popular costumes! You just never know what kind of lovemaking will ensue until you try.
